

# Coda Audio G-Series G308

**CODA**  
C O D A A U D I O

The G308 is an extremely compact and versatile full range 2-way loudspeaker system that features an ultra low distortion 8" neodymium woofer and 1" neodymium compression driver coupled to a 90° conical waveguide. The multi-design enclosure is fitted with M6 threaded points for use with an optional U-bracket or M6 safety eyebolts. The G308 is physically the smallest cabinet size within the G-Series product range. This small cabinet size combined with highest quality specifications, makes the G308 compatible for a wide range of stand alone applications as well as offering in-fill and zoned usage as part of a bigger system setup.

At the heart of every Coda Audio G-Series product is a set of exacting neodymium drivers.

### Key features:

- HF driver - patented annular diaphragm design with CuCup technology reduces intermodulation distortion (IMD)
- LF driver - linear motor with triple demodulation rings for ultra low distortion and increased power handling
- Selectable rear panel EQ switch for enhanced high level near field listening experience

### Key advantages:

- Outstanding audio quality and performance
- Exemplary component reliability

### Technical specifications:

Type:	2-way full range system, multi-design enclosure
Application:	High quality short throw
Frequency response:	70 Hz – 30 kHz (-3 dB)
Power handling AES:	220 W
Program power:	440 W
Peak power:	880 W
Sensitivity:	94.5 dB
Max. SPL peak:	124 dB
Dispersion:	90° conical
<b>Components:</b>	
Low frequency:	8" ultra low distortion cone driver, 2" voice coil
High frequency:	1" compression driver, 1.5" voice coil
Crossover point:	1900 Hz
Nominal impedance:	8 Ω or 16 Ω
Input connectors:	2x Neutrik™ NL4MP
Suspension:	2x M6 threaded points
Enclosure material:	Birch plywood
Finish:	Textured black paint
Dimensions (WxHxD):	230 x 470 x 265 mm
Net weight:	9.5 kg

- Flexible and complete accessory package
- Multi-application use
- Variable HF dispersion
- Expandable user application area with introduction of Subwoofer system
- Competitive price point advantage

### Applications:

- Front of house PA or Stage Monitoring
- Ground stack, flown or mobile placement
- Corporate AV – Theatre – Houses of Worship – In-fill or zoned system support applications

### Need more?

The G-Series offers expanded specifications with the use of the G512-96. This full range 2-way cabinet with increased output power and frequency response and the same sonic signature, can be used in combination with the G308 when greater throw and power is required.

The addition of the appropriate Coda Audio subwoofer expands frequency response and application area.

### Need less?

The Coda Audio D-Series D5-Cube, D5-Tube, D5-Ceiling, will not only amaze you with their outstanding capabilities, but also offer great reduction in physical size while delivering highest audio quality.

Coda Audio G308 fact sheet (1 of 2)

### Accessories:

**A8VG**  
Vertical U-bracket

- Certified vertical U-bracket for G308
- Easy to install and use
- Allows for vertical cabinet placement from a fixed point or suspension from trussing

**A8HG**  
Horizontal U-bracket

- Certified horizontal U-bracket for G308
- Easy to install and use
- Allows for horizontal cabinet placement from a fixed point or suspension from trussing

**24481**  
Wall mount

- Certified fixed wall mount bracket

**GFA**  
Flying adapter

- Certified fly rail allowing maximum flexibility for touring applications

**GFS**  
Stand fitting

- Certified fitting for use with speaker pole or speaker stand

M6 safety eyebolt

- Certified M6 eyebolt for fixed hanging point use and/or as a secondary safety point

A68620 truss clamp

- Certified truss clamp for fixed hanging point use

### System components:

AC24VS-S	Analogue Controller
PW112, PW118	Subwoofer
C-Series	Amplifiers
